

# 课程设计

## A. 课程设计前的准备工作----知己知彼，量体裁衣。

- Ask yourself many questions before designing your course.
- Talk to Chinese teachers about the Chinese programs at their schools.
- Research on existing Chinese programs online.
- Learn as much as possible about your students.

## B. 确定教学目标---只有现实的教学目标才能被实现。

- Reduce the gap between your expectations and realities.
- Set up the realistic goals of your program.
- Decide what to teach.
- Write your course syllabus with your students in mind.

## C. 选择教科书和其它教学资料---精心选择，灵活使用。

- Choose a textbook that can help you reach your goals.
- Use the textbooks as flexible as you need it to be.
- Use your passion and imagination to create your own supplementary materials.
- When choosing a textbook, please keep your students in mind.

## D. 实现教学目标---采用多样化的教学法以实现教学目标。

People learn

- 10% of what they read.
- 20% of what they hear.
- 30% of what they see.
- 50% of what they see and hear.
- 70% of what they say.
- 80% of what they do.
- 90% of what they say and do.
